

Large engine valve grinding machine

DESCRIPTION

Valve refacer for big motors. Ease of use and high precision make the RV 5500 an indispensable machine for those who operate on valves of big motors.

Max valve stem diameter	Ø 40 mm
Min valve head diameter at 45° with steady rest	Ø 15 mm
Max valve head diameter at 30° and 45°	Ø 200 mm
Min. valve length at 30° and 45° with steady rest	230/180 mm
Min. valve length at 30° and 45° without steady rest	95/180 mm
Grinding wheel motor stroke	95 mm
Graduate sector stroke	150 mm
Grinding angle	20° ÷ 60°
Grinding wheel diameter	Ø 175x30 mm
Grinding wheel speed rotation	2.800 RPM
Spindle rotation speed	20 ÷ 50 RPM
Dimensions LxPxA	80 x 60 x 60 cm
