

VACUTEST 116

Electric vacuum gauge

DESCRIPTION

With the VACUTEST 116 reliable and precise "leak test" are carried out which allow to operate more quickly and with greater professionalism :

- For testing leakage on cylinder heads or leaky valves
- For check up valve tightness directly on the vehicle when manifold is removed
- Perfect device for testing petrol and diesel engines valves before or after valves seats reconditioning
- For testing all vacuum controlled functions on carburetors, injection systems, automatic transmissions etc.

The use of a suitably calibrated electric vacuum pump makes the VACUTEST 116 a precise and reliable instrument.

Suction volume	11.6 l/min
Max vacuum value	-850 mbar
Electric power	220 V – 50Hz
Dimensions	33 x 16 x 20 cm
Weight	10 Kg
